

TWCA Executive Committee Meeting
Thursday, December 7, 2pm
Executive Board Room, 2nd Floor

AGENDA

1. Roll Call and Committee Roster
2. Financials and Administrative Matters
 - a. YTD Financial Reports and summary of 2023
 - b. Staffing Update
 - c. NWRA Membership and Other Association Engagement
 - d. Non-Profit/Tax Status Update
 - e. Strategic Planning
 - f. Proposed 2024 Budget
3. Legislative Committees Discussion
4. Lifetime Membership Nominations
 - Luana Buckner
 - Sonny Hinojosa
 - Sonia Lambert
 - Tom Michel
 - Tito Nieto
 - Mark Schultz
 - Walt Sears
 - Jim Sims
 - Chris Wingert
5. Any other business/updates

TWCA EXECUTIVE COMMITTEE ROSTER

Immediate Past President
Walt Sears

President
Lyn Clancy
Lower Colorado River Authority

President-Elect
Wayne Owen
Northeast Texas MWD

Treasurer
Mike Booth
Booth & Associates

DRAINAGE DISTRICTS

Chair: Allen Sims, Jefferson County Drainage District #7 – 2025

Vice Chair: Craig Kalkomey, LJA Engineering – 2024

GENERAL & ENVIRONMENTAL

TWCA STRATEGIC PLANNING SNAPSHOT

The purpose of the strategic planning process was to articulate why TWCA exists and how to accomplish our mission, prioritize investments of time and money, and align our membership and effectively communicate with our audiences and stakeholders.

VISION

To be a trusted resource promoting sound water policy for Texas.

MISSION

Advocate priority water policies to state and federal decision makers. Build consensus. Educate members.

ADVOCATE

- Use TWCA's water experts to develop sound water policy
- Improve communications with policy makers
- Determine most effective way to accomplish federal outreach initiatives

BUILD

- Build consensus within TWCA on water policy
- Partner with other organizations to create policy solutions
- Formalize TWCA decision making process and define consensus

EDUCATE

- Improve and expand communications to TWCA members and outside interests
- Develop member knowledge of the organization
- Grow the value of TWCA conferences and membership

SUSTAIN

- Maintain and increase TWCA membership
- Create opportunities for member participation
- Maintain financial health with reliable revenue streams
- Prioritize TWCA programs and responsibilities

ITEM: Discussion and possible action on TWCA legislative committees
DATE: December 7, 2023
BOARD CONTACT: Lyn Clancy
STAFF CONTACT: Sarah Kirkle

After the last legislative session, TWCA staff and leadership began evaluating the structure and process of its state legislative committees to improve communication, efficiency, and effectiveness of these groups. These committees include the well-known Surface Water Committee and Groundwater Committee but have also included committees that don't fall under either umbrella, like the Flood Response Committee and joint committees on water rates and waste.

Based on that review, staff recommends combining these committees into one overarching legislative committee. This consolidation would provide several benefits, including:

- **Allow for Better Prioritization of TWCA's Legislative Agenda and Workload.** One legislative committee could prioritize issues across both surface water and groundwater and allow for cohesiveness in messaging. Many subcommittees across separate groups poses can pose workload issues for members and staff and political capital issues at the Legislature in the event a large number of proposals move forward. TWCA has faced these issues in previous sessions.
- **Avoid Redundancies in Overlapping Groundwater & Surface Water Issues.** More often, issues are being raised that concern both surface water and groundwater, causing those issues to either be abandoned or necessitating joint committees and duplicative voting processes. Combining these committees will eliminate the need for TWCA to establish separate task forces outside the established committee structures for overlapping issues.
- **Minimize Conflicting Issues or Approaches.** While TWCA staff manage around most potential policy conflicts between the committees, conflicts still exist. One example of this disconnect can be seen in the different approaches the committees took to WAM and GAM funding and the inability to work on these measures in a more cohesive way, causing confusion for some members. In addition, we anticipate general infrastructure funding to be one of the most significant issues for TWCA at the legislature in the near term, which logically falls under a "legislative committee" umbrella since it affects both groundwater and surface water.
- **Educate TWCA Members.** Part of TWCA's mission is to educate members on water policy issues. TWCA staff regularly hear from members looking to learn more about surface water or groundwater issues, especially as more entities diversify their water supply sources and engage across the full spectrum of water management. While most TWCA members generally understand differences in state groundwater and surface water policy, those who work mostly with one or the other may not fully understand the important issues facing the other. Drafting committees would still require subject matter experts to lead the effort, but the umbrella committee would provide members across the spectrum with the opportunity to learn and ask questions. An umbrella committee could help forge a common understanding of the important

issues facing these two different water spheres and further foster meaningful policy proposals to address the increasingly more challenging water issues facing the state.

- **Reduce TWCA Members' Time Commitment.** Many TWCA members serve on both the surface water and groundwater committees (46% of the groundwater committee and 39% of surface water committees members serve on both committees). While the substantive work in the subcommittee process would likely not change, combining TWCA's two legislative committees would reduce correspondence and the number of committee meetings on the front and back ends of the process. More importantly, combining the two committees will help us be mindful of Committee members' time and contributions.

Beyond these benefits, we have considered concerns that consolidating legislative committees could lead to reduced productivity or the ability of uninterested members to intentionally frustrate the process by voting against measures. We do not anticipate such results, as we generally have not seen members of a committee that are not substantively engaged in subcommittee issues vote against proposals in the past. However, if we do see issues with our ability to reach true consensus, we can re-evaluate the approach in advance of the next session.

Finally, we expect that a new, overarching legislative committee would follow the same guidelines related to identifying issues, developing subcommittees, and defining consensus as our existing Surface Water and Groundwater committees. All TWCA members would be welcome to participate, subject to enrollment periods. We also encourage continuing the new system of distinguishing between legislative proposals that TWCA merely "supports" (should a bill be filed on the subject) and proposals that it intends to "initiate" (work to find a sponsor for a bill and help carry the legislation through the process), which was a successful change during the 88th legislature.

Proposal: Combine TWCA's state legislative committees into one Legislative Committee to address all issues that inform TWCA's legislative agenda.

Upcoming TWCA Conference Dates and Locations As of November 2023

2023

- Annual Convention: March 1-3, 2023, Hyatt Lost Pines, Bastrop
- Texas Water Day: March 6-8, 2023: Hotel Washington, Washington, D.C.
- Summer Conference: June 14-16, 2023, The Woodlands Resort
- Fall Conference: November 1-3, 2023, Marriott RiverCenter San Antonio
- Board Holiday Dinner and Meeting: December 7-8, 2023, Omni Austin Downtown

2024

- Annual Convention: March 6-8, 2024, Hyatt Lost Pines, Bastrop
- Texas Water Day: March 11-13, 2024, Washington, D.C.
- Summer Conference: June 12-14, 2024, Loews Arlington
- Fall Conference: October 23-25, 2024, Marriott RiverCenter San Antonio
- Board Holiday Dinner and Meeting: TBD

2025

- Annual Convention: March 5-7, 2025, AT&T Hotel and Conference Center, Austin
- Texas Water Day: TBD
- Summer Conference: June 11-13, 2025, Woodlands Resort
- Fall Conference: October 22-24, 2025, Marriott RiverCenter San Antonio
- Board Holiday Dinner and Meeting: TBD

2026

- Annual Convention: March 11-13, 2026: Worthington Renaissance Fort Worth
- Texas Water Day: TBD
- Summer Conference: TBD
- Fall Conference: October 6-9, 2026, Marriott RiverWalk San Antonio
- Board Holiday Dinner and Meeting: TBD
